Dear colleagues and friends,

the Associazione Riabilitatori dell’Insufficienza Respiratoria (ARIR) is organising its third congress on the shores of Rimini, Italy, from March 10 to 12, 2016. This congress offers the opportunity to meet colleagues from Europe and around the world, who are interested in enhancing their knowledge and sharing experiences so as to improve respiratory care and further promote the development of applied technology. Professionals will be sharing their clinical and practical experience in the form of workshops, practical symposia and roundtable discussions. Creative and innovative issues in Respiratory Care will be presented in the plenary sessions while the exhibition hall will expose you to the latest in respiratory care technologies and related therapies.

Rimini is the main touristic resort in the Riviera Romagnola. It is the ideal setting for this conference, to make this event an educational, fun and memorable experience.

We are very pleased to welcome you in Rimini!

ARIR PROFILE

ARIR was created in 1989 by a group of Physiotherapists who wanted to give a voice and contribute to the development of this profession by means of continuing education and discussion between those working in Physiotherapy and Pulmonary Rehabilitation. The multidisciplinary and Evidence-Based-Medicine approach are the preferred paradigms for pursuing the above objectives. In the last 15 years, ARIR has created links of significant interaction and collaboration with associations relating to and part of the field of Physiotherapy and Pulmonary rehabilitation. ARIR has organized continuing education opportunities with the Italian Group of Cystic Fibrosis Physiotherapist (GIFT/FC) and with the Italia Physiotherapists Association (AIFI). ARIR has been a collaborator in the founding of the European Respiratory Care Association (ERCA) and since 2002 has been affiliated with the American Association for Respiratory Care (AARC) and with the Italian Hospital Pneumonologists Association (AIPO).

Another important initiative by ARIR is the Master in Physiotherapy and Respiratory Rehabilitation, which is now at the ninth edition and has trained more than 100 Italian and foreign physiotherapists. This initiative contributes concretely to the creation of this discipline in Italy.

16.45 - 17.00 CLOSING REMARKS
Italian and English are the official languages of the Congress. Simultaneous translation (English/Italian) will be available only during Plenary Sessions.

COMPUTER CENTER
Speakers are kindly requested to use Powerpoint. A Computer Center will be available in the Congress Area. To allow for the smooth running of sessions, Speakers are requested to contact this center and hand in their CD (pen or memory stick) at least one hour before the beginning of their session or the previous afternoon for the morning sessions.

ECM ACCREDITATION
The program of the 3nd International Conference on Respiratory Physiotherapy will be submitted for Italian Continuing Medical Education, for the following roles: physician (pneumologist, physiatrist, anesthesist, pediatric), nurse and physiotherapist.

SCIENTIFIC INFORMATION
ABSTRACT SUBMISSION
The deadline for abstract presentation is January 22, 2016. Abstract can be sent via e-mail as pdf, docx/doc file to the Organizing Secretariat: info@victoryproject.it. The Scientific Committee will make a selection. Notification for acceptance will be sent by February 22, 2016.

INSTRUCTIONS
Abstract should be as informative as possible and should adequately describe the objectives, methods, results and conclusions of the research. All abstracts must be submitted in English using Times 12 pt and have no more than 400 words, excluding title, authors, affiliations and references. Please do not include figures or any graphical representations into the abstract. Do not use abbreviations; only standard units of measurement are acceptable.

Please enter your information as follows:
· Author’s names. The name of the Presenting Author should be mentioned first underlined. Separate multiple authors with commas.
· Authors’ affiliation(s).
· Address of the corresponding author. Valid e-mail address is mandatory; fax/phone numbers and postal address may be useful in case of problems with e-mail correspondence.
· Title (20 words maximum)

Abstract body organized as follows:
Background: A short introduction to the background of the study is needed. Limit information to the essentials. If you are referring to a published work, then you must cite it. Aim: Please mention the aim of the study. Methods: Give enough details for the reader to understand what techniques were used. Results: Results must be stated. Should the method produce numerical data, then numbers must be presented with appropriate statistical results. Conclusions: Significance of the results supported by the data presented. References: References should contain at all the information shown in the following example: 1. Dhand R. Bronchodilator delivery with metered-dose inhalers in mechanically-ventilated patients. Eur Respir J 1996; 9: 585–595

Authors will need to choose among the following topic categories to ensure correct abstracts scoring: exercise/sport, airway clearance, aerosol therapy, education/management, invasive/non-invasive ventilation. Please keep in mind that the Scientific Committee may elect to assign an abstract to a category deemed more appropriate.
CASE PRESENTATION SUBMISSION
Case Presentations of interesting and unique reports describing clinical case are welcome. Case presentation offers narratives of the challenges of an activity, the processes/techniques used, and the results achieved (good or bad). Accepted submissions will be chosen on the value and contribution of the report, not only on the quality of the outcome that it describes. This means that a valuable lesson learned from a poor outcome is just as acceptable as a valuable lesson learned from a good result. They must be submitted in English, have no more than 500 words, and sent to info@victoryproject.it no later than January 22, 2016.

POSTER SESSION
Abstracts accepted will be presented as paper poster. Details with size and layout requirements will be given to the authors after selection. Poster session will be held on Thursday 10 from 19.30 to 21.00 (cocktail included).

ORAL COMMUNICATION
The Scientific Committee will select a few abstracts/case presentations for oral presentation on Friday, March 11 from 18.00 to 19.00. Oral presentations will have 5 minutes for the Speaker and 4 minutes for Questions & Answers. It is necessary to respect the assigned time in order to guarantee a smooth running of the session.

The presenting author of an accepted abstract must register for the Conference. We remind that corresponding authors are responsible for ensuring that all authors of a submitted abstract are aware of and agreed to have the abstract submitted and published, if accepted. Corresponding authors acknowledge that the contents of the abstract have not been published prior to the date of submission, understanding that best abstracts will be published in the ARIR journal Rivista Italiana di Fisioterapia e Riabilitazione Respiratoria.
