Update from Hermes

Delphi 1
August - November 2013
To present drafted syllabus items and collect feedback for improvement

- 61 experts (Task force + national experts)
- 13 countries represented
- A majority of physiotherapists specialised in respiratory physiotherapy responded (25%)

Delphi 2
August - November 2013
To propose the restricted syllabus modules and items based on feedback in Delphi 1

- 163 respondents (Task force + national experts + ERS assembly 3.10)
- 13 countries represented
- A majority of physiotherapists specialised in respiratory physiotherapy responded (25%)

Delphi 3
February - April 2014
To propose the restricted syllabus modules and refine a final draft for syllabus publication

- 104 respondents (Task force + national experts + ERS assembly 3.10)
- 13 countries represented
- A majority of physiotherapists specialised in respiratory physiotherapy responded (25%)

Breathe | September 2014 | Volume 10 | No 3

After the publication of the syllabus in 2015, the respiratory physiotherapy HERMES task force is almost ready to publish the comprehensive curriculum which will provide a framework for implementation of a post-graduate training programme in respiratory physiotherapy in individual EU countries.

A world where all people breathe freely

GARD Italy

ARIR is continuing its work for GARD – Italy (Global Alliance Against Chronic Respiratory Disease).

Three board members of ARIR were nominated as referees of commission II, III and V, namely Emilia Privitera, MSc, PT, Sergio Zuffo, MSc PT and Marta Lazzeri, PT.

➔ We are currently working on a position paper on respiratory failure to be adopted by our national healthcare system.

ONGOING

DONE 2017

Our association sponsors and keeps coordinating this controlled, randomized multicenter trial *“Effects of home-based pulmonary rehabilitation in patients with severe or very severe chronic obstructive pulmonary disease (COPD)”*.

132 patients have been enrolled so far
